JOURNAL of MEDICINE

REVIEW CME PROGRAM

The Massachusetts Medical Society designates each educational activity for a maximum of 50 category 1 credits toward the AMA Physician's Recognition Award, provided a score of 70% or better is achieved. Each physician should claim only those credits he/she actually spent in the activity. The Massachusetts Medical Society is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The American Medical Association has determined that physicians not licensed in the U.S. who participate in this CME activity are eligible for AMA PRA Category 1 Credit.[™]

The NEJM Review CME Program has been approved by the American Academy of Family Physicians as having educational content acceptable for Prescribed credit hours. Term of approval covers issues published within one year from the beginning distribution date of Sept. 1, 2006. The NEJM Review CME Program has been reviewed and is acceptable for up to 50 Prescribed credit hours. Credit may be claimed for one year from the date of this issue.
